

ONE BEDROOM APARTMENT IN BEYLIKDUZU, ISTANBUL

We are extremely proud to present West Side Istanbul, where life begins with morning exercise, allowing you to draw in the clean air of the grove and lasts until midnight in a cultural kaleidoscope of sports centres, sailing/diving areas, social facilities, shopping malls, childrens playgrounds, theatre/movie halls and various entertainment venues.

What is more, West Side Istanbul is in a very exclusive location thanks to the grove surrounding it on three sides and its close proximity to the E5 and metrobus. West Side Istanbul features a supermarket on the ground floor with 24,000m² of space, while its active architecture reflects the liveliest aspects of living in a city.

Our project features a total of 1152 apartments with different types of floor plans, ranging from studios to 4+1's. With each block averaging 10 storeys in height, West Side Istanbul invites you to enjoy the city without being cut off from life.

Shopping malls, entertainment centres, universities, hospitals, hotels..... all of the advantages of city life are just around the corner in your new home!
