

VILLAS WITH ROOF TERRACE FOR SALE

We are proud to present this beautiful project in Kyrenia. It has a unique location and sea view that is in the east of Kyrenia on the sea side of the road, only 10 minutes from the center of Kyrenia, within walking distance of the sea and a beautiful sandy beach. This project, which is located near famous 5-star hotels, is ideal for city life with a sea view and proximity to nature, as well as for investment, due to its accessibility to shopping, health center, schools, university, restaurants, bars, and clubs. Walking paths have been designed for our project, which is located on a wide and spacious land with private gardens, landscaping for each villa and wide green areas. This project of 16 villas was constructed with unique designs and original landscaping with environmental protection in mind. View and reserve early to avoid disappointment.
