

LUXURY OFFICES ON THE MAIN ROAD

This brand-new business center project with commercial properties for sale is located in the heart of Kyrenia , in the Karakum area of Northern Cyprus . The project is designed to provide a flexible workplace for business owners right by the busiest main road in the city. This is a great investment opportunity in North Cyprus due to the convenient location of the commercial units, which are a short distance away from banks, high schools, supermarkets, hotels and petrol stations. The project includes 4 ground floor loft shop units, where every shop has an additional large basement floor; as well as 4 first floor office units, where some of the offices have an open terrace with incredible sea view . All units have great usage areas and are made of high-quality materials. COMPLETION DATE: December 2024
